SUMMARY: : Final-year Btech student with internship experience in Data Analytics and AI, skilled in Python, SQL, Power BI, LangChain, and LLM-powered analytics and forecasting applications.

EXPERIENCE

Quiklee Oct 2026 – Present
Data Analyst and AI Intern India

- Developing ShipIQ, a shipment analytics platform using Python, Pandas, and Streamlit to track delivery rates, RTOs, cancellations, and courier performance across multiple brands
- Building interactive KPI dashboards with date-wise tracking, state-wise analysis, and courier-level insights, alongside PDF/CSV reporting and data management capabilities
- Implementing RBAC with secure authentication, role-based authorization, and user management, while integrating a Groq-powered GenAI chatbot for natural-language shipment analysis and operational recommendations with fallback handling

Gotisheel Technologies LLP Jun 2026 – Sep 2026
Data Analytics and AI Intern India

- Developed an Industrial Safety Surveillance Analytics Platform using Python, Pandas, and Streamlit to analyze 3,500+ surveillance events for safety compliance and operational risk assessment
- Built interactive dashboards using Power BI and Plotly to visualize safety KPIs, violation trends, camera-wise incidents, zone-wise risks, and detection confidence
- Integrated an AI-powered safety assistant using LangChain, FAISS, Sentence-Transformers, Llama 3.3 70B, and Groq API to support natural-language safety queries and insights

Century Plyboards India Ltd. Jun 2025 – Aug 2025
Data Analyst Intern India

- Analyzed 502K+ manufacturing sales transactions representing 175K+ CBM of volume using Python, Pandas, Excel, and Plotly to identify sales trends, regional performance, product KPIs, and customer insights
- Developed interactive BI dashboards and demand forecasting models using Moving Average and Exponential Smoothing, evaluating performance with MAE and RMSE to support data-driven management decisions

PROJECTS

VoxAssist AI: AI-Powered Voice Agent | GitHub

- Built an AI-powered voice agent using Python, Streamlit, and Groq API, integrating LLM-based responses with Retrieval-Augmented Generation (RAG) and ChromaDB for contextual FAQ retrieval
- Integrated Faster-Whisper speech-to-text and Piper text-to-speech, enabling voice-based customer support, with a Pandas and Plotly dashboard for interaction analytics and response-time monitoring

Multi-Agent AI Business Intelligence Assistant | GitHub

- Designed a modular, multi-agent BI system (OOP architecture) automating data validation, cleaning, and KPI generation, reducing repetitive manual data-preparation workflows
- Built Prophet-based revenue forecasting and automated executive PDF reporting using ReportLab, accelerating insight generation and report delivery

EDUCATION

Vellore Institute of Technology - VIT 2023 – 2027
B.Tech in Electronics and Communication Engineering | *CGPA: 8.5/10*

SKILLS

Languages: Python, SQL, Java
Analytics & Data: Pandas, NumPy, Excel, Power BI, EDA, Feature Engineering, Data Cleaning, Cohort Analysis, Funnel Analysis, A/B Testing, Retention Analysis, Customer Churn Analysis, Forecasting (Prophet, Moving Average, Exponential Smoothing, MAE/RMSE)
Growth & Product Analytics: User Acquisition, Conversion Analysis, Retention Metrics (D1/D7/D30), Customer Segmentation, KPI Analysis, ARPU, LTV, CAC
Visualization: Plotly, Streamlit, Matplotlib, Seaborn
AI / ML: LLM Integration, RAG, ChromaDB, LangChain, FAISS, Sentence-Transformers, CrewAI, LangGraph, Groq API, Prompt Engineering, Llama 3.3 70B, Faster-Whisper, Piper TTS, OpenCV, InsightFace (SCRFD-10G, ResNet-50), ONNX Runtime, Scikit-learn, Cosine Similarity, RBAC, AI Fallback Handling
Reporting & Export: ReportLab, OpenPyXL, CSV Export
Tools & Infrastructure: FastAPI, Git, GitHub, VS Code, Jupyter Notebook, SQLite, python-dotenv, API Integration, Streamlit Secrets

CERTIFICATIONS

AWS Cloud Practitioner | Deloitte Data Analytics Job Simulation | MATLAB Onramp | Prompt Engineering Foundation | Foundations of Modern AI | Fundamentals of Generative AI | Introduction to Agentic AI | GitHub Copilot Fundamentals Virtual Training

ACHIEVEMENTS

Founder & First President, Northeast Association, VIT-AP University
Executive Member, Student Council, VIT-AP University
Represented India at World Championship (Croatia)
National Karate Team Member | National & State Gold Medalist | 15+ National Championships
